7 Tax Withholding Election

Please consult IRS Form W-4R available from www.irs.gov/pub/irs-pdf/fw4r.pdf. You may use these tables to help you select the appropriate withholding rate for this payment or distribution. Add your income from all sources and use the column that matches your filing status to find the corresponding rate of withholding. Review the "Suggestion for determining withholding" section of the instructions to help determine the rate of withholding appropriate to your tax situation.

Federal withholding will automatically be deducted from distributions at the rate of 10% for IRAs (20% for Qualified Plans), unless you check one of the boxes below. Certain Roth IRA distributions may not be subject to withholding. Withholding from a Qualified Plan generally must be at least 20% unless the distribution is to satisfy a Required Minimum Distribution (RMD).

You may elect a withholding rate from 0 to 100%. If you have too little tax withheld, you will generally owe tax when you file your tax return and may owe a penalty unless you make timely payments of estimated tax. Please be advised that withholding will be taken from the proceeds of your distribution. Should you wish to receive a specific net amount, you may want to consider increasing the amount of your distribution. For systematic distributions, your withholding election will remain in effect until you revoke or change it, which you may do at any time.

Some states require withholding regardless of your federal withholding election. Furthermore, state withholding is not available for certain states.

Specifying a rate other than the default, 10% for IRAs or 20% for Qualified Plans, affirms that you have consulted IRS Form W-4R, and the Marginal Rate Tables within, to determine your withholding percentage.

- Do not take federal withholding. I understand that I am responsible for payment of any federal or state taxes on my distribution(s).
- Please take federal withholding at a rate of _____% from my distribution(s). State withholding may also apply (refer to your state's guidelines for further information).
- Do not take state withholding.

8 Required Minimum Distribution (RMD)

If the deceased account owner was over RMD age and had elected to have their annual RMD paid out on a systematic basis, any remaining RMD payments scheduled for the year of their passing will be paid out from the Inherited IRA as a death distribution. This applies to all beneficiary types. If the RMD was not being paid out on a systematic basis, please select the appropriate box below (does not apply to Roth IRAs).

- Please pay out the deceased account owner's final RMD from the account(s) as a death distribution using the distribution method I selected in the Payout Options section.

- Do not pay out the deceased account owner's final RMD from the account(s) as a separate death distribution.

Note: If an RMD option is not selected above, and a systematic plan did not exist on the deceased account owner's account, U.S. Bank Global Fund Services will not pay out the deceased account owner's final RMD. You will be responsible for ensuring that the final RMD requirement is met.

If the RMD is missed or not taken for any year, for any reason, the Internal Revenue Service will impose a 50% penalty over and above the amount that should have been distributed.
